ChemWorld ALK NEU

Concentrated Liquid Soak Tank Cleaner

ChemWorld ALK NEU is a blend of alkaline builders, particle soil dispersants, water conditioners, and a synergistic blend of detergents designed to provide effective penetration and removal of even the most stubborn oils and shop soils in conventional hot tank or ultrasonic cleaning. ChemWorld NEU is a suitable cleaner prior to electroplating, anodizing, painting of ferrous metal components, or other industrial coating processes. ChemWorld NEU is highly recommended for use on soft metal components such as aluminum or zinc, as well as all ferrous alloys. If left unrinsed, ChemWorld NEU will provide temporary rust protection of up to 10 days in indoor storage to ferrous metal parts. The liquid form of ChemWorld NEU provides convenience of handling, extended tank life, and improves employee safety. ChemWorld ALK NEU (a very similar product) will prevent corrosion up to 90-days indoor protection.

PRODUCT PROPERTIES:

Appearance:	Clear liquid, odor nil.
Specific Gravity:	1.15
Solubility:	Complete
Flash Point:	None
pH(1%):	9.8
pH (100%):	9.4
VOC Content:	Zero
Phosphate Content:	None
Biodegradability:	Detergent portion is 100% biodegradable by present standards.

USE INFORMATION:

Concentration:	4 to 15% by volume.
Temperature:	120-190°F.
Contact Time:	As available (usually 2-10 minutes)

PRECAUTIONS: May cause irritation to the eyes upon contact. Prolonged contact may cause skin irritation. ****AVOID CONTACT** FOR INDUSTRIAL USE ONLY!**

PACKAGE: Bulk, Tote, 55, 30, 15, and 5-gallon non-returnable drums.
