

Bulk Dowfrost Tanker Order

Standard bulk deliveries are as followed (Requirements outside of the below must be communicated):

Item Number	Item Description	Customer Notes	Customer Initials
1	80 FT of hose/ 3IN hose (reducers for 2IN hose if needed)		
2	Rear or belly unloader required?		
3	What type of area/space does the carrier have to park in or get into site?		
4	Is a pump required – what kind?		
5	Will truck be pumping up more than 1 story? If yes – the truck pump will not have enough pressure to pump off the product and a separate pump will need to be arranged by the customer/jobsite.		
6	What is the PSI requirement (max 23PSI)?		
7	Male/Female Camlocks 2 IN		
8	Delivery Site contact name/phone number?		
9	Is this a job site delivery?		
10	Delivery Time 7AM-5PM (Specify)		
11	Is a delivery appointment required?		
12	Special Requirements?		

** All product must be offloaded. Additional storage area must be provided by the purchaser on site. (If storage area is not provided, the purchaser will be responsible for disposal fees) **

** Each delivery has a standard 2 hr delivery window. Demurrage fees range from \$80 - \$150/hr. The purchaser of the heat transfer fluid is responsible for demurrage costs.

**Any changes to the order after confirmed by ChemWorld could result in a delay
