ChemWorld ECO 396

USDA Approved General Purpose Cleaner

ChemWorld ECO 396 is a highly effective blend of biodegradable detergents, tarnish and corrosion inhibitors, and water conditioners designed primarily for hard surface cleaning operations, ranging from floors to walls, equipment, and machinery. ChemWorld ECO 396 may be applied manually, non-recirculating high pressure spray, foam generation, floor scrubber, or by agitated immersion. ChemWorld ECO 396 is a highly concentrated liquid which is effective in the hardest of waters. ChemWorld ECO 396's concentrated detergency emulsifies, saponifies, and effectively disperses even the most difficult of oils and soils, and is easily rinsed away. ChemWorld ECO 396 will not adulterate food in federally inspected meat, poultry, and egg processing operations when followed by a potable water rinse. ChemWorld ECO 396 is silicate-free and will not plug ultrafiltration and micro-filtration membranes under normal use conditions.

PRODUCT PROPERTIES:

Appearance:	Clear red liquid, odor nil.
Specific Gravity:	1.03
Silicate Content:	None
Solubility:	Complete
Flash Point:	None
pH(1%):	10.5 - 11.5
Biodegradability:	Detergent portion is 100% biodegradable.
HMIS Rating:	2,0,0

USE INFORMATION:

Concentration:	Heavy soils:	10 to 20% by volume dilution
	Moderate soils:	5 to 10% by volume dilution
	Light soils:	Up to 1 to 5% by volume dilution

Temperature: Warm water accelerates cleaning, 110-160°F is optimal.

PRECAUTIONS: May cause irritation to the eyes upon contact.

****AVOID CONTACT** FOR INDUSTRIAL & COMMERCIAL USE ONLY!**

STANDARD PACKAGING SIZES: Bulk, 330 + 275 gal, 55 gal, 30 gal, 15 gal, and 5 gal. containers.
OPTIONAL: Private labeling. Bulk container packaging from 1 oz to 5 gallons.
